

I am writing to you since I heard over the news that Sinclair is requiring all of their affiliates to air a program about Senator Kerry that is called "Stolen Honor". From what I understand it is one view, and negative of him. To use the airwaves for a political attack in a Presidential election by such a conglomerate does not seem to me to be legal. This also would seem to me to come under campaign financing laws. I would appreciate your action in this matter. Thank you.
